

# Test-Taking Tips

- Watch for **EXTREME words** (e.g. always, never, most, all, etc.)
- Identify **KEY WORDS** that describe and color the question/answer
- **Pick the “Better”** of the two; may not necessarily be the “best” answer
- **SLOW DOWN** on multiple answer questions (e.g. pick three, which is “True”)
- Try the **OPPOSITE approach** on “which of these is true/false”
- **Don’t SECOND GUESS** yourself
- **Don’t Over-Analyze** or read assumptions into questions/answers that are not there
